Home Diagnostics Added to Russell Indexes

FORT LAUDERDALE, Fla. – July 1, 2009 – Home Diagnostics, Inc. (NASDAQ: HDIX), a leading manufacturer and marketer of diabetes testing supplies, announced today that it has been added to the Russell 3000®, Russell 2000® and Russell Global Indexes, effective as of June 26, 2009 after the close of the U.S. markets.

“We welcome the addition of Home Diagnostics to the Russell Indexes,” said Joe Capper, President and CEO of Home Diagnostics. “We believe we are well positioned as the leading provider of quality, value priced products in the blood glucose monitoring market and are pleased to gain this incremental exposure for our Company in the investment community.”

The annual reconstitution of Russell’s U.S. indexes captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization. Membership in the Russell 3000, which remains in place for one year, means automatic inclusion in the large-cap Russell 1000 Index or small-cap Russell 2000 Index as well as the appropriate growth and value style indexes. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes. The Russell 3000 also serves as the U.S. component to the Russell Global Index, which Russell launched in 2007.

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies. An industry-leading \$4 trillion in assets currently are benchmarked to them.

About Home Diagnostics, Inc.

Based in Fort Lauderdale, Florida, Home Diagnostics, Inc. (NASDAQ: HDIX) is a leading developer, manufacturer and marketer of diabetes management products. Home Diagnostics, Inc. offers a portfolio of high-quality blood glucose monitoring systems that spans the spectrum of features and benefits to help every person with diabetes better monitor and manage their disease.
