

Frequently Asked Questions

- **Does TRUEmanager™ run on Windows XP/Vista 64?** NO, TRUEmanager™ currently does not support Windows XP/Vista 64 but will in the next release.
- **Can data be exported to another system or a spreadsheet?** YES, under the main menu there is an export feature that will save one or more patients to a structured CSV file which can be opened in most spreadsheet programs or imported into an external system.
- **Can TRUEmanager™ be installed on a server?** NO, the current version of TRUEmanager™ can't be installed on a server but the next release will be fully networkable.
